

I am writing to inform you of how KLOVE Radio serves me. I am a Mom of a four year old, a wife, a Catholic School Music Teacher, and a Liturgist. KLOVE radio first of all provides a safe medium for my daughter to listen to radio. There is no need for a seven second delay, because the station does not promote that kind of nonsense. Second of all KLOVE helps me to teach my daughter about Christian values and beliefs- something that is very hard to do in our commercialized world. I also use KLOVE with my students to show them that there is more than gansta rap and competition and bad role models in the world!

I believe that the effect on the local community were KLOVE to be displaced by an LPFM broadcaster providing other programming would be very negative. Why reinvent the wheel and take away a good thing? KLOVE has many different styles of music, although they are all Christian. The fact that they are Christian helps me get through my day, remind me that God is there with me. It is just another reminder in this all too commercialistic, competitive, unsafe world that we are not alone! If you take that away- then we are just reminded that there is one less medium we have to remind us that God is there. We, as a society are already lacking in this area- let's NOT MAKE IT WORSE.
